If you’re at this point in your entrepreneurial journey, you’ve probably already built your team, but you may still be in that R&D phase – and if not then you might want to consider looking at some of the other handouts in this series. For some student entrepreneurs this can be the most tedious part of working towards your venture. Luckily, the university has some resources that you can use to prototype your products and also to meet with your team.

**Building, Making, and Tinkering at U-M**

**Wilson Center:** [http://goo.gl/GbGVOs](http://goo.gl/GbGVOs)
The Wilson Student Team Project Center empowers student teams by providing a facility in which they can experience **hands-on development and fabrication**, enhance engineering theories, and allow members to use practical application of knowledge. Use of this space requires training, so be sure to look at their website to figure out how to access this space!

**Embedded Systems Lab:** [http://goo.gl/lO0rym](http://goo.gl/lO0rym)
The Michigan Embedded Systems’ Hub is a shared resource available to all UM students, staff and faculty. We have the resources needed to do basic embedded systems work and also offer a variety of training sessions related to embedded systems (**PCB design, soldering, and microcontroller basics**).

**Duderstadt Center:** [http://goo.gl/1OH13i](http://goo.gl/1OH13i)
The Duderstadt Center is home to a ton of resources for student entrepreneurs. Along with being the home to the Center for Entrepreneurship, it houses **Design Lab 1 and Design Lab 3** but it also is the location of the university’s new **3D printing** space! Check out the above website to see all that the Duderstadt Center can offer to you when trying to launch your business.

**Bookable Spaces**

Throughout the university, there are a number of places that students are able to book for meetings, and other events. This list is not all encompassing, but it definitely will serve as a good start!

**Innovate Blue Workspace:** [http://goo.gl/forms/FRK6WTSOtd](http://goo.gl/forms/FRK6WTSOtd)
Located on the first floor of the Shapiro Undergraduate Library, the Innovate Blue workspace offers students the opportunity to have their event at a centrally located space on campus. If you book this space, be sure to show up a few minutes before your event to ask any students studying there to relocate.

**Innovate Blue Conference Room:** [http://goo.gl/forms/TybNC4RTG4](http://goo.gl/forms/TybNC4RTG4)
Located directly next to the Innovate Blue workspace, the conference room offers students the ability to host meetings in the quietest space in the Ugli.

**Room Reservations Resource:** [http://goo.gl/iuKKPy](http://goo.gl/iuKKPy)
The Center for Campus Involvement created the Room Reservation Resource as a tool for finding spaces that are available across campus. Check out this resource to find other spaces that might be a good fit for your event!
